COVID-19 Guidelines for Library Visitors

Welcome back! Thank you for visiting the library! In order to maximize the health and safety of you, staff, and other patrons, the following guidelines are in effect until further notice:

- If you have any signs or symptoms of illness, please do not visit the library.

- Everyone over the age of two years who is able to medically tolerate it is required to cover his/her nose and mouth with a mask/face covering while in the library.

- During this phase of opening, please keep your library visit short.

- Whenever possible, keep a social distance of at least six feet from those around you. Wash your hands or use hand sanitizer after touching library materials.

- If you take books, DVDs, or magazines off the shelf and then decide that you do not want to check them out, please return them to a marked cart so that they can be quarantined before being reshelved.

- Computer time will be limited to one hour time slots per day.

- The total number of people in the library building at one time is limited.

- Youth under the age of 12 must be accompanied and directly supervised by a parent or older responsible caregiver.

- We have added a second self-checkout station so you are encouraged to use one of those or arrange a time to pick items up during our Parking Lot Pick Up service.

- Reusable bags will not be allowed to be brought into the library.

- Patrons are not allowed to eat or drink in the library.
